12 treats

## Ingredients

- 12 soft caramel candies, unwrapped
- 12 pretzel sticks, broken in half
- 1 1/2 cups milk chocolate melting wafers
- 24 candy eyes
- 12 red candy-coated chocolates (such as M&M's)
- 24 mini chocolate chips (for the ears)

## Instructions

1. Line a baking sheet or plate with parchment paper.
2. Slightly flatten each caramel and press two pretzel halves into the top for the antlers.
3. Melt the chocolate according to the package directions.
4. Dip each caramel into the melted chocolate, coating completely. Let the excess chocolate drip off and place on the parchment.
5. While the chocolate is still soft, add two candy eyes, one red candy for the nose, and two chocolate chips for the ears.
6. Let the chocolate set completely before serving.

**Tip:** If the caramel is too firm, microwave it for 3-5 seconds to soften slightly before inserting the pretzels.
